

# 30

# THE FASTEST WAY

to move goods in & out of **Heathrow**

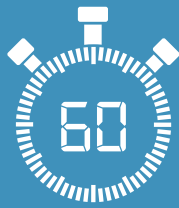

### Born out of the baggage halls

Before CFL, a courier would have to stand and wait with passengers in the baggage halls. Not very express. Which is why Heathrow Airport and the courier companies got their heads together to solve the problem. And we're proud to say that CFL was the solution.

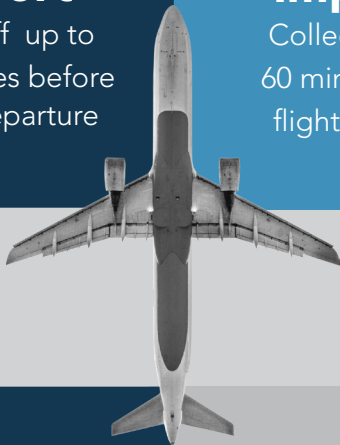

### Export

Drop-off up to 90 minutes before flight departure

### Import

Collect from 60 minutes of flight arrival

### Delivering the goods since 1983

Right from take-off in the eighties, CFL has existed for one purpose: to provide customers with the best possible handling service at Heathrow. Now over **30 years old**, we continue to be the critical link for customers, helping keep their businesses moving from ground to air.

### Big names, small company

Created by the industry for the industry, CFL is owned by some of the biggest names in the logistic and airline business. Making us big enough to handle your goods but small enough to care about your business needs.

From you to us to **anywhere** in the world

Only CFL connects your business with all the courier connections that Heathrow offers. Taking your shipments from you, to us, to anywhere in the world.

### Flights handled

As the UK's biggest express centre, we handle a staggering number of flights daily, with impressive efficiency.

**60+**

Daily

**200000+**

Annually

### Heavyweight service

Combining a unique mix of manual and automated services, our expertise and purpose-built facility ensure your shipments are packed efficiently and reach their destination in perfect condition - every time.

**130,000** KG's
